How many companies are on the Fortune 500 list?

There are exactly 500 companies on the Fortune 500 list. The list was originally created to highlight the top 500 U.S. companies based on their annual revenue. This is where the name "Fortune 500" comes from. While the majority of the companies on the list are publicly traded, it also includes some private companies that meet the revenue criteria.

What companies are not included in a government-sponsored list?

The list excludes large privately held companies such as Cargill and Koch Industries whose financial data is not necessarily available to the public. However, this list does include several government-sponsored enterprises that were created by acts of Congress and later became publicly traded.

Does Yum Brands include private companies or over-the-counter stocks?

Yum! Brands, Inc. does not include private companies or over-the-counter stocks in its list. It provides a free 30-day trial with unlimited access to all data and tools, and a list of all stocks listed on the NASDAQ, NYSE and NYSE American in the United States, sorted by market cap and updated daily.
