What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

Why is a custom telecom enclosure necessary?

Custom outdoor telecom enclosures from KDM are necessary because they help you constantly adapt off-the-shelf product requirements. KDM relies on both custom and standard NEMA standard telecom cabinets to protect their internal equipment. Our telecom enclosures are manufactured with the highest quality standards under stringent ISO 9001:2005 manufacturing & quality management system.

Why should you choose a KDM outdoor telecom enclosure?

A KDM outdoor telecom enclosure protects your telecommunications equipment outdoors and withstands outdoor elements such as temperature extremes, dust ingress, ice, shock hazards, and UV damage. It also safeguards against moisture, condensation, chemicals, and corrosive gases that can affect sensitive components within.
